Poland

Dear Dr Ewa

Please find attached the copyright to the English NFPTA double check method as agreed with the NFPTA Association and introduced by Colleen Norman.

We are pleased to extend the copyright and hope that we can forge ties with colleagues in Poland in the future to promote NFP, the health of women and the unborn generation.

Kind Regards.

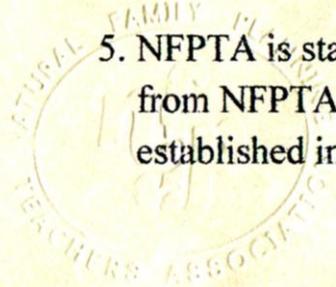

Christine Bergess  
NFPTA - Chair.

# Natural Family Planning Teachers Association (England and Wales UK)

*This is to certify that NFPTA gives copyright to teach NFPTA Double Check Method to the Polish Association of NFP Teachers as follows:*

1. In 1988 NFPTA trained the first group of Polish people in the NFPTA Double Check Method researched by Anna Flynn and John Kelly in Queen Elizabeth Hospital in Birmingham
2. This group of NFP teachers founded in 1989 in Poland the **Polish Association of NFP Teachers**, having as a main objective to teach the NFPTA Double Check Method in Poland
3. To help the Group achieve this objective, NFPTA transferred for the benefit of the Polish Association the copyright to use all its didactic materials. Mrs. Colleen Norman also gave the Polish Association copyright to use all drawings and artwork that she had produced.
4. From the very beginning of its activity in NFP teaching in Poland, the Polish Association has remained in regular contact and consultation with NFPTA on the strict application and updates to the rules of the method.
5. NFPTA is stating now that Polish Association of NFP Teachers is the only association in Poland which has from NFPTA the copyright to teach the original and true "English" NFPTA Double Check Method as established in Birmingham.
